1/14/71

Dear Dan,

Glad to hear from you. Feel good in that southern calif sun. We had 15 " snow last week, were iced in this a.m. and are fogged in tonight.

I have heard from not one, not Michael Zwerling, not Fr. McGee.

Keep working though, wondering with each Nazi-like injustice how it would have been had those who are the prime targets interested themselves in work which, had it become known, might have helped, migigated or frustrated.

A condensed (but still enormous) version of my work on the King/Ray case (FRAME-UP) will be out in a few months. Dutton is distributing.

Hope you are putting it all together.

Thanks for thinking of us. Got six other letters to answer and it is past what in a regualr job is "quitting time".

Have a good year,
